Computer Science student with strong analytical background in Applied Mathematics and experience building web applications using Python and JavaScript. Skilled in Java, SQL, Git/GitHub workflows, and interactive software development. Seeking a Software Engineering Internship to continue developing full-stack and backend development skills.

Education

- **Lake Washington Institute of Technology - Kirkland, WA**
Bachelor of Science in Computer Science (In Progress, 2026–Present)
AAS-T in Computing & Software Development, 2024–2025
GPA: 3.990
- **Moscow State Academy of Instrument Engineering & Computer Science (Russia)**
U.S. Equivalence: Bachelor's + Master's Degree in Applied Mathematics
Engineer-Mathematician in Applied Mathematics | 2002

Technical Skills

- Languages: Java, Python, JavaScript, C#, SQL, HTML, CSS
- Tools & Technologies: Git, GitHub, VSCode, IntelliJ IDEA, Visual Studio

Projects

- **Cooking Odyssey - Full-Stack Web Application**
Django, Python, HTML, CSS, JavaScript
Developed a multi-page recipe web application using Django, JavaScript, HTML, and CSS with responsive UI design, routing, forms, dynamic content handling, and Git/GitHub version control workflows
- **Game of Life - JavaScript Interactive Simulation**
JavaScript, Node.js
Developed a console-based JavaScript implementation of Conway's Game of Life using grid-based state management, neighbor-counting algorithms, 2D arrays, conditional logic, and ANSI-colored terminal visualization

Experience

- **Stel – Computer Systems, Russia | Software Developer | 2003–2013**
Built frontend and backend functionality for STELLUS, a state-wide e-learning platform, using JavaScript, HTML, CSS, Classic ASP, and VBScript

Honors & Activities

- Phi Theta Kappa Honor Society
- President's List, Lake Washington Institute of Technology (Fall 2024 – Winter 2026)
